

Due to existing steering group members moving on in their careers we have some exciting opportunities. We are looking for enthusiastic motivated people working as Forensic Nurse Practitioners, and those allied healthcare professionals working in the field of Forensic Nursing (not to be confused with Mental Health Forensics) to join our existing steering committee team. This involves approx six meetings a year with other like minded people across the UK for information sharing, working towards best practice and raising UKAFN profile. We are looking for; a Treasurer, (no experience required, but able to be computer literate and able to produce brief quarterly reports), Newsletter editor (again no experience required just enthusiasm) plus a generic member keen to help in raising the profile of UKAFN. Please contact Jo Delaforce at; [membership@ukafn.org](mailto:membership@ukafn.org)
